

## **MECHANISM TO IDENTIFY VACANCIES IN ALL CSB OPERATED PLACEMENTS FUNDED BY DBHDS**

**Purpose:** To define a process for communicating and updating a list of available CSB and regional housing resources funded by DBHDS for individuals being discharged from state hospitals using the “CSB Housing Resources for State Hospital Discharges” table created by DBHDS.

**Process:** The Northern Virginia Regional Projects Office (NVRPO) in collaboration with the Region 2 CSB Aftercare Managers will update and maintain the “CSB Housing Resource for State Hospital Discharges” table created by DBHDS.

This list will be updated in real time by the NVRPO based on notice of vacancy from the Aftercare Manager or the residential vendor for regional housing programs funded by DBHDS.

This list will be updated at the monthly Census Management meetings for regional housing resources funded by DBHDS.

**Goal:** This process is expected to facilitate expeditious placements in housing resource programs funded by DBHDS for individuals being discharged from state hospitals.
